

Product Name :
Steel and Metal

Product Code :
NLAB-STELTLAB190001

Description :

Steel and Metal

Technical Specification :

When testing metals, indentation hardness correlates linearly with tensile strength. This important relation permits economically important nondestructive testing of bulk metal deliveries with lightweight, even portable equipment, such as hand-held Rockwell hardness testers. Steel testing equipment from M&L includes: Brinell hardness testers, Rockwell type hardness testers, Vickers type hardness testers, Stiffness testers, Steel force testing equipment, Roughness testers, Strength testers, Thickness testers, and Vibration tester
