

**Product Name :**  
Theodolite

**Product Code :**  
NLAB-ENGINEERINGLB85009

**Description :**

Theodolite

**Technical Specification :**

We bring forth for our customers watts theodolites which are robust scientific instruments extensively employed in surveying and engineering work.

These Theodolites are mainly used for measuring angular values in a traverse or network between survey marks.

Watts theodolites can also determine a line of sight along a level plane by combining a spirit level and a telescope.

Our range of products is subject to customization to meet the needs of our clients, and can be availed reasonable rates.

Watts theodolites is mainly used for:

Surveying and engineering work.

Determination of a line of sight along a level plane.

Measuring angular values in a traverse or network.

Watts Pattern Theodolite Available in two different model:-

Watts Pattern Theodolite 10 Sec Accuracy.

Watts Pattern Theodolite 20 Sec Accuracy.
