

Product Name : Trainer for The Study of Energy Utilization	Product Code : ES854
--	--------------------------------

--

Description :

Trainer for The Study of Energy Utilization

Technical Specification :

This trainer have modular structure and it consist of didactic panels that installed on a vertical frame. The modularity of this didactic system grants to the students a direct and immediate approach to the topic, offering the opportunity to study various subjects performing different experiments:

- Demonstration of the manual operation on the control of reactive power at various inductive loads
- Demonstration of the automatic operation on the control of reactive power at various inductive loads and at different sensitivities
- Demonstration of the measurement of active energy consumption
- Demonstration of the measurement of reactive energy consumption
- Determination of the meter's constant
- Demonstration of the measurement of the maximum demand
- Demonstration of load cut-off operation
