Product Name : Trainer for The Study of Energy Utilization	Product Code : ES854
Description :	
Trainer for The Study of Energy Utilization	
Technical Specification :	
This trainer have modular structure and it consist of didactic panels that ins The modularity of this didactic system grants to the students a direct and in offering the opportunity to study various subjects performing different exper Demonstration of the manual operation on the control of reactive power at Demonstration of the automatic operation on the control of reactive power a different sensitivities	nmediate approach to the topic, riments: various inductive loads
Demonstration of the measurement of active energy consumption	
Demonstration of the measurement of reactive energy consumption Determination of the meter's constant	
Demonstration of the measurement of the maximum demand	

Naugralabequipments

Demonstration of load cut-off operation
