

Product Name :
TVET Rock Core Sample Verification Machine

Product Code :
NLAB-EDUCATIONTVET40012

Description :

TVET Rock Core Sample Verification Machine

Technical Specification :

Used to verify the dimensional and shape tolerances of rock core specimens up to 50mm dia. by 100mm length.

The straightness of the cylindrical surface can be easily verified by the top dial gauge as well as flatness and verticality of end surfaces by the same dial gauge fitted to the lateral magnetic articulated dial gauge holder.

The apparatus comprises a base support with column and dial gauge holder that can be adjusted precisely vertically, a precision dial gauge 5x0.001mm, a "V" block, a magnetic articulated dial gauge holder and small circular magnets to fit the "V" block on the basis.
