

Product Name :
TVET Soil and Weather Sensor

Product Code :
NLAB-EDUCATIONTVET41003

Description :

TVET Soil and Weather Sensor

Technical Specification :

High measurement accuracy, wide range, good stability, low power consumption, strong resistance to external interference, can work around the clock, not affected by weather changes, no need to calibrate.

precision technology, solid-state design, more robust structure, high strength, weather resistance, corrosion and water resistance, long service life.

integrated installation, small size, easy to carry, disassemble and install, suitable for gridding, intensive, refined layout requirements.

Low power microcontroller

Low power 4G/3G/2G GSM transmitter

Upgradeable high gain antenna for remote area application

High performance li-ion battery with solar charger

Up to 2 Giga Bytes data logger
