

Product Name :
Vacuum Degassing Oven

Product Code :
NLAB-ENGINEERINGLB31017

Description :

Vacuum Degassing Oven

Technical Specification :

The Vacuum Degassing Oven is used to precisely and accurately degas pressure-aged binder samples to meet standards.

The compact, table-top unit is constructed of stainless steel with a hinged lid to conserve space while allowing easy access to the stainless steel vacuum chamber. The oven holds up to 4 specimen containers and features a self-contained automatic vacuum system. The high pressure controller features a digital display indicating time, temperature and the current stage of each process, as well as illuminated pre-heat, degas and end/ stop buttons.
