

Product Name :
Vickers Hardness Tester

Product Code :
NLAB-MECHANICALAB250006

Description :

Vickers Hardness Tester

Technical Specification :

Testing range is very wide, from soft metal such as lead, upto the hardest, like hard steel.

Same hardness number is obtained on the same specimen, regardless of the load applied.

The indication is tiny and allows testing of a precision finished part.

Loading and unloading cycle is motorized.

Thin sheet metal is perfectly tested because the load applied very small.

Built-in projection screen to get accurate results.

For Auto Turret Machine after clicking on cycle start button indexing mechanism will operate automatically & loading mechanism starts, once loading finishes again indexing mechanism will positioned at measuring station.
