

Product Name :
Wood Working Band Saw Machine

Product Code :
NLAB-MECHANICALAB260026

Description :

Wood Working Band Saw Machine

Technical Specification :

A wood saw is used for cutting woods with the help of a cutting tool. The tool is a toothed wheel, known as wood saw blade, which rotates at a high speed that makes the cut on the wooden blank. This helps in achieving the process of wood cutting at a much higher rate that leads to elevate production levels. There can be different wood saw types depending upon the mode of operation. Hand saw is a manually operated, whereas there are some wood saw machines that are mechanically operated as well. The most efficient among these are electrically operated saw machines that has the capacity to stretch long hours.

Standard Accessories :

Saw Blade

Upper & lower saw blade guide set Mitre gauge

Motor pulley

Motor fixing plate

Toolkit & m/c manual
