Product Name:

Worm and Worm Wheel Two Gear

Product Code:

NLAB-MECHANICALAB240057

Description:

Worm and Worm Wheel Two Gear

Technical Specification:

Available in various specifications, these are applied to reduce the rotational speed and transmit a higher torque or force to make an object rotate on its axis. These wheels have a compact design and offer unmatched performance. Industrial worm wheels are manufactured keeping in mind their uses in a particular industry, such as mining, presses, rolling mills and conveying engineering. This also protects the vehicle against roll-back and boast of higher reduction ratios.
